# Ferrite Clamp for the HP 64700B LAN Connection Installation Guide

The ferrite clamp included with the HP 64700B reduces RFI emissions from the LAN cable when it is properly installed. It ensures compliance with the CISPR 11 Class A limits. The ferrite clamp does not affect the functionality of the HP 64700B in any way.

- Clamp the ferrite over the LAN cable as close as possible to the HP 64700B rear panel as shown below.
