Attention: Read first

The following is updated information for the IBM® ZIP250 and ZIP100 Internal Drive, with IomegaWare software for Microsoft® Windows® Millennium Edition (Me), and Microsoft Windows 2000 Professional.

IomegaWare for Windows Millennium and Windows 2000 is now available for the **IBM ZIP250** and **ZIP100 Internal Drives.** Installing IomegaWare ensures full compatibility of your ZIP media. It also enables you to read and write protect your ZIP250 media. You can download IomegaWare from the IBM Support Web site.

To download the software from the IBM Support Web site, do the following:

1. Visit the IBM Personal Systems Group Support Web site at http://www.ibm.com/pc/support/.
2. Click **Options**.
3. Select **Diskette/ZIP Drives** from the **Category** pull-down menu.
4. Select **Internal** from the **Subcategory** pull-down menu.
5. Select **00N8078 IBM ZIP 250MB Internal Drive** or **20L0544 IBM ZIP 100MB IDE Internal Drive** from the **Option** category.
6. Select **Downloadable files**, located under the heading Technical Information on the left-hand side of the page, to find the Iomega software package for your system.

Windows Me and Windows 2000 Users:

1. To install IomegaWare, double-click the self-extracting program that was downloaded using the instructions from above.
2. Follow the on-screen instructions to install the software.
3. Your ZIP drive and IomegaWare is now ready to use. Open **My Computer** to see an icon for your ZIP drive.
4. Right click on the ZIP icon in **My Computer** to access the IomegaWare tools.
